## An Alarm, Datalogger or More than Sensor

[www.avino.com.tr](http://www.avino.com.tr)

product support hotline  
0850 480 39 90

It receives and records temperature, humidity, carbon dioxide, power failure, water consumption and weighing data via wireless connection.

It allows all data to be stored, analyzed and printed.

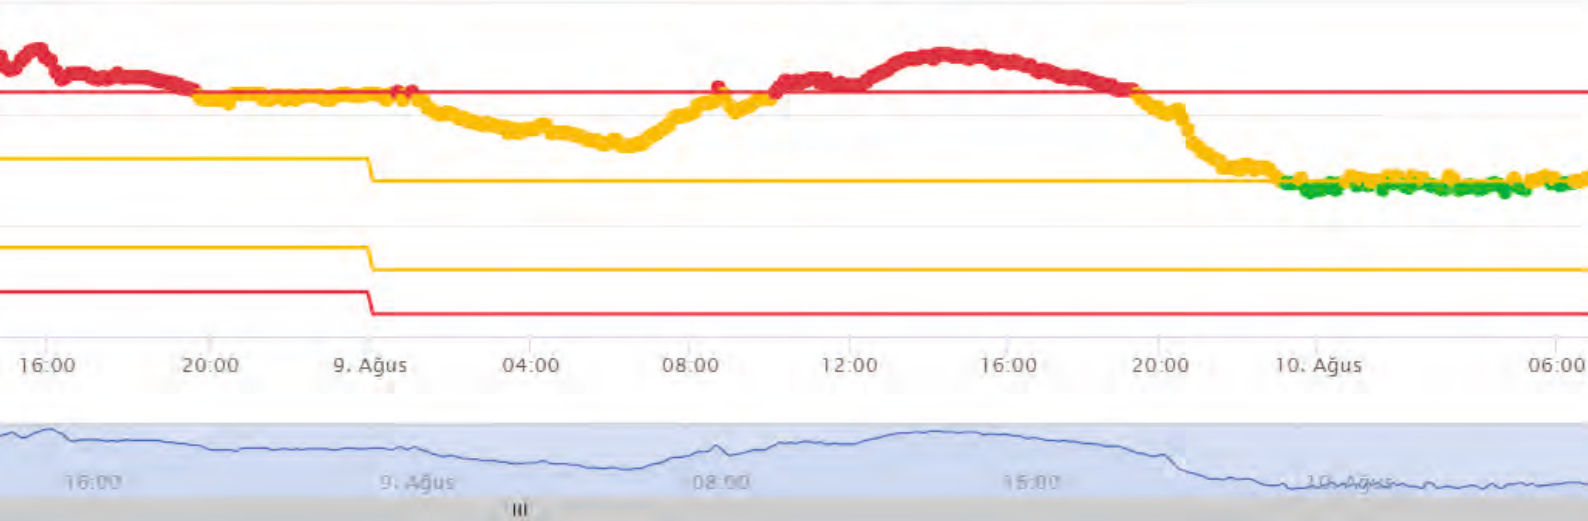

All data over the internet, real time to your phone as a delivery service.

It notifies you instantly of alarm status with siren, phone call, sms and e-mail.
